

# Conflict in Cyberspace

Graduate Seminar, Fall 2023  
Anton Sobolev

***Week 06***

*What is Cyberspace?*

# Midterm Group Project: Guidelines

## **Part 1: A brief history of cyberspace in country X**

- ☐ X joined global cyberspace: when, why, and how
- ☐ X' Infrastructure to connect to the global network
- ☐ Evolution of key features of X's cyberspace
- ☐ Non-typical of X's cyberspace

## **Part 2: Cyberspace governance in country X**

- ☐ Technical Governance
- ☐ Political Governance
- ☐ International Cooperation

## **Part 3: X' national cyber strategy**

- ☐ Key documents and statements
- ☐ Goals and priorities
- ☐ Major threats
- ☐ Existing and alternative evidence
- ☐ The elephant in the room
- ☐ Official goals VS actual policies

## **Part 4: Conclusion**

# Presentation Requirements

## Talk (15 min)

- ☐ Maximum two presenters per group
- ☐ Presenters should not read slides or notes while presenting
- ☐ Presenters can have cards with notes and check them

## Format

- ☐ Bullet points instead of full sentences
- ☐ Minimize the amount of text on slides
- ☐ White background
- ☐ Last slide: description responsibilities & tasks

## Evidence

- ☐ Use figures and schemes as much as possible
- ☐ Figures and tables should be created with **R** and **ggplot**

# First guess is wrong: Monopolization of violence does not work in CyberSpace

Although this perspective was looked different 15 years ago: Viruses and Antivirus Companies as Protection-Racket Business
